Software License Agreement

This Software was developed by the *<CMPG/Bioinformatics*, *Dep Microbial and Molecular Systems* and is owned by the Katholieke Universiteit Leuven, for the purposes of this Agreement represented by K.U.Leuvenn Research & Development, Minderbroederstraat 8a – box 5105, B-3000 Leuven, Belgium ("hereinafter referred to as KULEUVEN").

Article 1 - Definitions

- 1.1 "Software" shall mean KULEUVEN's software in executable version described in Annex A, excluding source code.
- 1.2 "Effective Date" shall mean the date on which you download or install the Software and associated files on your system.
- 1.3 "Academic User" shall mean a user of Software: who is employed by, or a student enrolled at, or a scientist legitimately affiliated with an academic, non-profit or government institution; and whose use of the Software is on behalf of and in the interest of such academic, non-profit or government institution and is not on behalf of a commercial entity.

Article 2 - License

- 2.1 As long as you qualify as an Academic User, K.U.LEUVEN hereby grants you a royalty-free, non-exclusive, non-transferable license to the Software supplied by KULEUVEN for strictly internal, non-commercial research use only. You acknowledge and agree that you may not use the Software for commercial purpose without first obtaining a commercial license from K.U.LEUVEN.
- 2.2 For the purposes of this Agreement "use for commercial purposes" shall include the use or transfer of the Software for a consideration as well as the use of the Software to support commercial activities including providing services with the Software to third parties. Any use of Software for commercial purposes without first obtaining a license from KULEUVEN shall be deemed a breach of this Agreement for which KULEUVEN shall be entitled to whatever remedies it may have under law or equity, including recovery of consequential damages.
- 2.3 You shall not sublicense any of your rights to the Software. Neither will you transfer the Software to a third party, unless prior written agreement of KULEUVEN has been obtained. Furthermore, you are not allowed to reverse engineer, decompile or disassemble the Software.

Article 3 - Ownership

The Software is copyrighted and KULEUVEN retains all title and ownership to the Software. Nothing in this Agreement shall preclude KULEUVEN from entering into agreements with third parties concerning the Software.

Article 4 - Publication

LICENSEE shall acknowledge KULEUVEN as the provider of the Software and shall include a reference to the reference listed in Annex A in any manuscript describing data obtained using the Software.

Article 5 - No Support

This license does not entitle you to receive from KULEUVEN technical support, telephone assistance, or enhancements or updates to the Software. Any support that may be given by the authors of the Software on voluntary basis is provided "as is" and KULEUVEN makes no representations or warranties of any type whatsoever, express or implied, regarding the provided support.

Article 6 - Warranty

- 6.1 The Software is provided "as is" by KULEUVEN without warranty of any kind, whether express or implied. KULEUVEN specifically disclaims the implied warranties of merchantability and fitness for a particular purpose or that the use of the Software will not infringe any patents, copyrights or trademarks or other rights of third parties. The entire risk as to the quality and performance of the Licensed Software is borne by you.
- 6.2 KULEUVEN shall not be responsible for any loss, direct or indirect damage or other liability incurred by you or any third party in connection with the Software licensed by KULEUVEN under this Agreement. Under no circumstances

shall KULEUVEN be liable for any direct, indirect, special, incidental, or consequential damages arising out of any performance of this Agreement, whether such damages are based on contract, tort or any other legal theory. You shall defend, indemnify and hold harmless KULEUVEN from all losses, damages, expenses, costs and other liabilities in connection with your use or disclosure of the Software.

Article 7 - Indemnification

You will indemnify, defend and hold harmless KULEUVEN, its directors, officers, employees and agents from and against all liability, losses, damages and expenses (including attorney's fees and costs) arising out of any claims, demands, actions or other proceedings made or instituted by any third party against any of them and arising out of or relating to any breach of this Agreement by you, or any use of the Software by you, except insofar as such claims or liability result from KULEUVEN gross negligence or willful misconduct.

Article 8 - Term

- 8.1 This Agreement is effective from the Effective Date until you delete the Software and any and all related files from your computing system. This Agreement will terminate immediately without notice from K.U. LEUVEN if you fail to comply with any provision of this Agreement.
- 8.2 In case of termination the provisions of Article 3, 6, and 7 shall remain in full force and effect.

Article 9 - Miscellaneous

- 9.1 Any notice authorised or required to be given to KULEUVEN under this Agreement shall be in writing and shall be deemed to be duly given if left at or sent by registered post.
- 9.2 The terms and conditions herein contained constitute the entire agreement between the Parties and supersede all previous agreements and understandings, whether oral or written, between the parties hereto with respect to the subject matter thereof.

Article 10 - Conflicts

In the event of conflicts in the interpretation and/or performance of this Agreement, the parties shall first undertake to settle their differences amicably. If no amicable settlement can be reached concerning the execution and/or interpretation of this Agreement, such conflict shall be brought before the courts of Leuven and Belgian Law shall be applicable.

Choose one of the options below:

By downloading and or installing the Software and associated files on your computing system you agree to use the Software under the terms and condition as specified in this Agreement.

Or

| By crossing the I agree button below | you acknowledge that yo | ou agree on terms of | use specified above |

Annex A: ViTraM

Description of the Software:

ViTRaM is a tool that is capable of visualizing overlapping transcriptional modules in a very intuitive way. ViTraM allows for a dynamic visualization of overlapping transcriptional modules in a 2D gene-experiment matrix. Multiple methods are included for obtaining the optimal layout of the overlapping modules. features:

- -In addition to the previously developed tools for visualizing multiple modules, ViTraM also allows to display additional information on the regulatory program of the modules. The regulatory program consists of the transcription factors and their corresponding motifs.
- -A first way of obtaining information on the regulatory program is by using the information from curated databases. This information can be used to further analyze modules inferred by biclustering algorithms.
- -Secondly, information on the regulatory program can also be the outcome of a module inference tool itself. Both types of information on the regulatory program can be included by ViTraM.
- -By visualizing not only the modules but also the regulatory program, ViTraM can provide more insight into the modules and makes the biological interpretation of the identified modules less complicated for biologists.
